

KISHORESHARMA T

7695946750 | krishkishoreks@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Aspiring Software Engineer with a solid foundation in Java and hands-on experience in data structures. Skilled in developing scalable applications, solving complex problems, and understanding cloud computing fundamentals. Seeking an opportunity to contribute technical expertise in a dynamic, growth-oriented tech environment.

EDUCATION

B.Tech – Information Technology Sona College of Technology CGPA: 8	2022 – 2026
Class 12 – Vaigai Matric Higher Secondary School, Salem – 77%	2022
Class 10 – Vaigai Matric Higher Secondary School, Salem – 92%	2020

SKILLS

- **Programming Language:** Java (Core Java, OOP, Collections, Exception Handling, Multithreading, Java 8+, Streams, Lambda Expressions)
- **Framework:** Spring Boot, Spring Data JPA
- **AI & Agentic Development:** Hermes Agent, Agentic Workflows, AI-assisted Development
- **Web Development:** HTML, CSS, JavaScript, React
- **Databases:** SQL (MySQL), NoSQL (MongoDB)
- **Cloud:** AWS (EC2, S3, IAM) – AWS Cloud Practitioner
- **Developer Tools:** Git, Visual Studio Code, Postman, N8N (Automation Tool)
- **Computer Networks:** OSI Model, TCP/IP, HTTP, DNS, REST APIs
- **Software Engineering:** SDLC, Agile, Scrum
- **Soft Skills:** Communication & Presentation, Problem-Solving, Team Collaboration, Adaptability, Critical Thinking

INTERSHIPS

Infosys Springboard Internship (Virtual)

- Project: Community Housing Project
- Tools/Technologies: Spring Boot, ReactJS

CERTIFICATIONS

- Programming in Java – NPTEL
- AWS Certified Cloud Practitioner
- AWS AI Practitioner
- Wipro Talent Next – Java Full Stack Certification

PROJECTS

NL2Mongo: AI Query & Visualization Platform

- Built a full-stack analytics platform that converts natural language prompts into MongoDB queries using React, Node.js/Express, and MongoDB, with an integrated NLP service.
- Implemented secure authentication and role-based access control with JWT and policy-driven permissions, including collection-level operations and field restrictions.
- Designed a two-step query workflow (plan then execute-confirmed) with conversational context memory, query history tracking, and explainable query outputs.
- Added automatic data visualization support (bar, line, pie, area) with dynamic chart-key detection.

StudyFlow – AI-Enhanced Study Management

- Developed a full-stack Progressive Web App (PWA) that unifies study planning, note-taking, flashcards, coding practice, and AI tutoring into a single offline-first platform.
- Built adaptive flashcards and quizzes using a spaced repetition system with integrated AI tutoring for personalized learning support.
- Engineered offline-first capabilities using service workers, IndexedDB, Supabase real-time subscriptions, and React Context for seamless data sync.

Full Stack Ecommerce Platform

- Developed modern web and mobile experiences using Next.js, React, React Native and TypeScript.
- Developed backend services and REST APIs using Node.js/NestJS with PostgreSQL and Prisma.
- Implemented authentication, product management, seller workflows, order processing and fulfilment features.
- Worked on customer, seller and delivery-partner application workflows.
- Deployed applications on Linux VPS infrastructure using Nginx and PM2.
- Performed API load testing and performance analysis to identify bottlenecks.
- Used AI-assisted and agentic development workflows to accelerate implementation, debugging, refactoring and feature development.

Technologies: Next.js, React, React Native, TypeScript, Node.js, NestJS, PostgreSQL, Prisma, Clerk, TanStack Query, Zustand, Linux, Nginx, PM2, Git, OpenAI Codex, Claude Code

HACKATHON PARTICIPATION

- TECHGium Hackathon Pre-Finalist – Developed a multicast-based CCTV streaming solution to optimize bandwidth for real-time multi-user viewing.

CO-CURRICULARS

- Academic Excellence Award – 2023-2024 and 2024-2025
- Chief Marketing Officer (CMO), Coding Ninjas 10x Student Club
- Organizer, GDG Developer Group
